

Grouping Methods

	
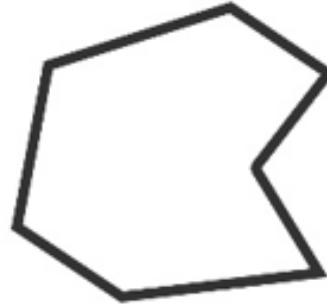

<p>equilateral/acute triangle odd number of sides regular polygon convex polygon</p>	<p>isosceles/right triangle odd number of sides irregular polygon convex polygon</p>
	
<p>scalene/obtuse triangle odd number of sides convex polygon irregular polygon</p>	<p>star decagon irregular polygon concave polygon even number of sides composite shape</p>

	
<p> arrow heptagon irregular polygon concave polygon odd number of sides composite shape </p>	<p> square quadrilateral even number of sides convex polygon regular polygon </p>
	
<p> rectangle quadrilateral even number of sides convex polygon irregular polygon </p>	<p> rhombus quadrilateral even number of sides convex polygon irregular polygon </p>

	
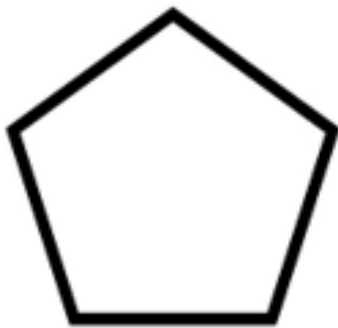

<p>parallelogram quadrilateral even number of sides convex polygon irregular polygon</p>	<p>kite quadrilateral even number of sides convex polygon irregular polygon</p>
	
<p>trapezoid quadrilateral even number of sides convex polygon irregular polygon</p>	<p>pentagon irregular polygon concave polygon odd number of sides composite shape</p>

decagon
regular polygon
convex polygon
even number of sides

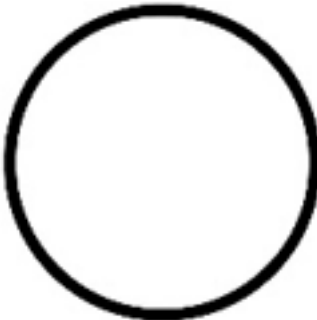

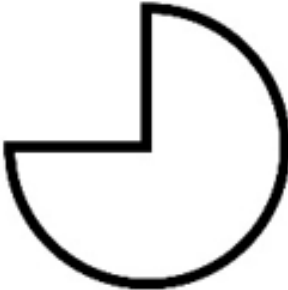

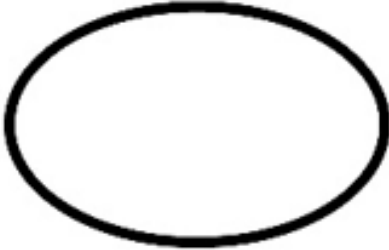

heptagon
irregular polygon
concave polygon
odd number of sides
composite shape

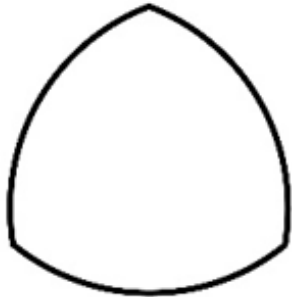

pentagon
regular polygon
convex polygon
odd number of sides

hexagon
regular polygon
convex polygon
even number of sides

	
<p>heptagon regular polygon convex polygon odd number of sides</p>	<p>Octagon regular polygon convex polygon even number of sides</p>
	
<p>nonagon regular polygon convex polygon odd number of sides</p>	<p>circle curved side</p>
	
<p>three-quarter circle curved and straight sides</p>	<p>Ellipse "Looks like a squashed circle" curved sides</p>

	
<p>Heart curved sides</p>	<p>curved sides</p>
	
<p>curved sides</p>	<p>semi-circle curved side and straight side</p>
	
<p>dodecagon irregular polygon concave polygon even number of sides composite shape</p>	<p>ring composite shape</p>

	
<p style="text-align: center;">crescent curved sides</p>
